Everglades Aquatic Nurseries Inc.

TAMPA,

FLORIDA

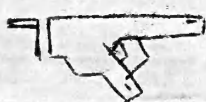

General Business Terms

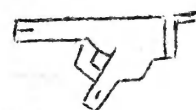

ADDRESS -

SPELL YOUR NAME AND ADDRESS IN PRINT FORM, so that there be no danger of mis-sending your order. Not doing so might cause delay and death to Plants or Fish. If possible (on Fish orders which go by express) give us your telephone number. It will help delivery.

SHIPMENTS -

!!! SPECIAL NOTICE !!!

FISH ORDERS LESS THAN \$1.00 NOT ACCEPTED!

All fish shipments go by Express and prices are f.o.b. Tampa, Florida.

PLANT, SNAIL AND FISH FOOD ORDERS

Small Plant, Snail and Fish Food orders may go forward via parcel-post if weather permits. INCLUDE 15¢ FOR PARCEL-POST CHARGE ON ALL PLANT, SNAIL AND FISH FOOD ORDERS LESS THAN \$1.25.

TERMS -

CASH WITH ALL ORDERS. If C. O. D. is desired, a deposit of 50% of the total amount must accompany order.

SHIPPING CANS -

Our shipping department is endeavoring at all times to deliver to you live healthy specimens and use their best judgment as to how many fish will ship safely in a can in the Summer or in specially packed cans in the Winter.

1 GAL. AMERICAN CAN (Carry 1 to 3 pair of small to medium size fish) NOT RETURNABLE \$.15 EACH

LARGE SPECIALLY TREATED 5 GAL. AMERICAN CAN (Carry from 10 to 35 Medium size fish)
RETURNABLE FOR FULL CREDIT WITH CARTON ^{1.25} ~~\$1.00~~ EACH
(Without carton 75¢)

MEDIUM "EVERGLADES" SHIPPING CAN (Carry from 40 to 60 Medium size fish)
RETURNABLE FOR FULL CREDIT WITH CARTON ^{2.25} ~~\$1.50~~ EACH
(Without carton \$1.50)

LARGE "EVERGLADES" SHIPPING CAN (Carry from 60 to 80 Medium size fish)
RETURNABLE FOR FULL CREDIT WITH CARTON ^{2.50} ~~\$2.00~~ EACH
(Without carton \$1.75)

SPECIAL WAXED CARTONS FOR MALE SIAMESE FIGHTING FISH - \$.05 EACH
NOT RETURNABLE

CANS BEING RETURNED FOR CREDIT, MUST BE PREPAID. THIS COSTS YOU ONLY 20¢ AS A "returned empty can" BY EXPRESS.

REPLACEMENTS

We replace fish and plants only when claim is accompanied by a BAD ORDER SLIP received from the Railway Express Agent by you and sent to us direct by you, with letter to back it up.

EXAMINE SHIPMENT ON ARRIVAL and should there be a loss, GET A BAD ORDER SLIP, stating whether can had been mishandled (dropped, overturned, overheated, chilled, or banged around to where the packing surrounding can is soaking wet and can showing a low water level). In this way you can help us in filing a claim.

WE THEN IN TURN WILL ALWAYS BE GLAD TO REPLACE IN CASE OF A LOSS.

* * * * *

"TROPICAL FISH AND HOW TO HANDLE ON ARRIVAL"

All fish leave here in robust healthy condition, but on account of some trips being rather long, it is best to handle them carefully and properly when they arrive.

- 1st. Leave your telephone number with the Express people, with instructions to be called immediately on arrival of shipment.
- 2nd. Meet the train and take shipment off yourself. This ELIMINATES the DANGER of a shipment being dragged all over town before it is delivered to you. Such trucking is dangerous to shipments, in Winter or Summer.
- 3rd. In COLD WEATHER, take thermometer with you and test water temperature at the express office. If same is below 70, the fish have been chilled and you should get a bad order report, stating the temperature.
- 4th. In WARM WEATHER, be careful and note as to whether shipment had been overheated while enroute to you. This is noticeable especially as some specimens will look as if a white scum covers them. This scum is nothing but the protective slime which covers all fish, cooked off, and is caused by the allowing of a can to get overheated enroute.
- 5th. On arrival home have a good clean aquarium ready with seasoned water for the new arrivals. They should not be put with your other fish for at least two or three days. Strain the water from out of our cans and put as much of it as you can into your aquarium. Then, float our fish in jars into your aquarium, so that the temperature in jar equalizes with that in the aquarium. It is also best to add a little salt to your water, about three large tea-spoonfuls to every twenty (20) gallons of water. This will act as a tonic and will not bother your plants.

PLANTS AND HOW TO HANDLE ON ARRIVAL

In planting up an aquarium for Tropical Fish, it is best to use rooted plants. Tall plants are usually placed in the background, short plants in the foreground. Vallisnerias are usually used for background work, as well as some types of Sagittarias. There are many types of decorative plants listed here, most of which are used as center plants and the type used depends on the size of the aquarium.

Bunch plants usually come with a number of sprigs bunched with a piece of lead around the bottom. These should be pushed down into the sand and allowed to root, which they will do easily. Plants sold as cuttings will root the same as bunch plants if pushed down into the sand.

As planting an aquarium is one's own personal taste and viewpoint, we cannot recommend any special way.

One of the greatest troubles of the average Fancier, is plants spoiling on him and not growing. Lack of sunlight is one of the greatest causes of plant spoilage. With a few exceptions, all Aquarium Plants require at least three to five hours of sun per day, or the equivalent in strong electric light over the aquarium. Plants kept without some direct sun or electric light usually go to pieces.

Sunlight is also good for your fish, as some varieties get the disease called "Rickets", because of the lack of sunlight. Such fish look caved in and seem to have hollow stomachs.

"AQUARIUM SPIDER PLANT"

(Cyperus haspan)

A NEW and TRIED plant recently introduced from Central America. This is another of the RARE plants that will grow like the Cryptocorynes under shaded conditions. Very fine for background work and will live where Sagittarias and Vallisnerias would die. Plants average in size from 8" to 16". See Picture.

PER PLANT 10¢ - PER DOZEN \$1.00

THE RAREST AQUARIUM PLANTS

REAL "MADAGASCAR LACE PLANT" (North Madagascar)
APONOGETON (Ouvirandra) FENESTRALIS
THE RAREST OF THE RARE AQUARIUM PLANTS

This plant is the most outstanding of Nature's handiwork. Its lacy leaves attract everyone's attention and cause wonderment at the peculiarity of this phenomenal growth. If handled properly, it is the most attractive thing in an aquarium. Its blossoms are in the shape of double headed white Shepherds crook. Undoubtedly it is "KING OF AQUARIUM PLANTS."

PER PLANT \$25.00

APONOGETON ULVACEUS (South Madagascar)

A real Queen of the aquarium, is this first cousin of the Madagascar Lace Plant. See write-up in the May 1939 "Aquarium Magazine" on page 12. Leaves are a lettuce green and from 2" to 4" in width. Blossoms, Golden-White and in the shape of a double headed Shepherds crook.

LARGE WELL PROPORTIONED MOTHER PLANTS \$5.00 EACH
Young Well Developed Plants - - - - - \$2.00 EACH

THE RARER AQUARIUM PLANTS CONT'D.

APONOGETON CRISPUS (From Ceylon)

A NEW Ceylon importation, also belonging to the Lace Plant Family. Almost as transparent as the Ulvaceous, but narrower leaved. These are undulated and a beautiful lettuce green. Blossoms White and in the shape of a Shepherds crook. We name this "PRINCE OF AQUARIUM PLANTS."

NICE BUSHY 6" PLANTS 60¢ EACH

APONOGETON ELONGATUS (Australia)

This Queensland variety also belongs to the Lace Plant Family and grows leaves in color from translucent green to bronzo red. Blooms easily under aquarium conditions and blossoms are a Golden-Rod color, shaped like a Shepherds crook. The "PRINCESS OF AQUARIUM PLANTS"

EXTRA NICE DEVELOPED PLANTS 2.50 ~~\$2.00~~ EACH

"AMAZON SWORD PLANT"

(Echinodorus intormodius)

This introduction from the Amazon grows very well under aquarium conditions, propagating from the larger plants in shoots that float to the top of the water. See magazine write-up of February 1938 issue of "The Aquarium." This plant undoubtedly is the natural leaf on which Angel Fish lay their spawn in their native haunts.

YOUNG WELL DEVELOPED PLANTS 25¢ ~~20¢~~ EACH - MEDIUM SPECIMENS 45¢ ~~35¢~~ EACH

EXTRA LARGE MOTHER PLANTS MANY LEAVED ~~20¢~~ EACH 1.75

"ZEBRA FUNDULUS" NOTTI - A very Odd striped and beauti- ful Florida aquarium fish. Males with beautiful Red cheeks and checker-board bodies of bars and stripes. Surprise yourself with their beauty - - - - -	.75	3.75

CICHLIDS ETC.

	PER PAIR	PER DOZ. FISH
*JEWEL FISH" - Red Chromide From Africa - Very popular. Breeders - - - - -	\$	\$
Cichlasoma Meeki - Beautiful "FIRE MOUTH" and Red throat Cichlid - Peaceful - Breeders Young - 35¢ EACH	2.50	2.50
"Lace Fin Cichlid" - Now Acquidens Specie - From French Guiana - Has beautiful flow- ing fins and snub nose - Very Peaceful - - - - -	2.50	2.50
*Cichlasoma cutteri - The "Con- vict Cichlid" - Very attrac- tive - - - - -	1.50	1.00
*"KONGO" - The "Christmas Cichlid" - Females showing beautiful tinsel christmas tree colors - The most beau- tiful of the Cichlasoma family - - - - -	1.50	1.00
"GOLDEN CICHLID" (Cichlasoma friedrichsthalii) Our own importation from La Ceiba. Peaceful - Good parents and very pretty - - - - -	1.00	1.00
ELASSOMA EVERGLADEI - Beauti- ful "PIGMY Sunfish" - Males Blue-Black with Emerald Green dots throughout the body - Very pretty - - - -	.50	2.50

	PER PAIR	PER DOZ. FISH
ANGEL FISH (Scalare) - U. S. GROWN STOCK - Mod. size Healthy Specimens - Size of Silver Dollar - - - -	\$	\$
GUARANTEED LARGE MATED BREEDERS - - - - -	10.00	10.00
EGYPTIAN "MOUTH BREEDERS" - Dwarf Haplochromis Multi- color - Have interesting breeding habits, female carries eggs and young in her mouth until they are able to take care of them- selves - - - - -	1.25	1.25
Orange Chromide (Etoplus maculatus) Very highly colored Cichlid from India. Remind you of Coral Reef fishes, because of their beautiful colors - Breeders -	2.00	2.00
"AMERICAN FLAG FISH" (Jorda- nella floridae) Beautiful and highly colored fish, whose markings remind you of the American Flag. Something like a Dwarf Gourami, but more highly colored - - - - -	.50	2.25
ENNEACANTHUS GLORIOSUS - The RARE DWARF Sunfish, found only in South Florida - Very peace- ful and remind you of a Dwarf highly colored Cichlid - - -	.75	3.75

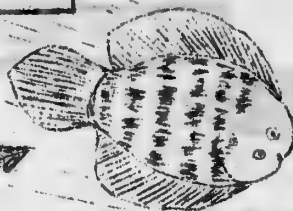

CICHLIDS MARKED WITH (*) should be kept to themselves. During breeding time they are apt to be mean and attack other fish in the aquarium, in their zeal to protect their eggs and young. When kept to themselves they show better color and with their young, are a sight to be long remembered. Young of these fish are Peaceful until full grown.
